## JAPAN DOES NOT EXPECT PEACE SOON

Believe Russians Will Fight to the Bitter End.

### LITTLE NEWS FROM THE FRONT

Japan Now Expects to Push the War to the Utmost Limits, and Is Now Preparing to Carry the Struggle to Harbin, or Beyond.

Tokio, March 17.—8 p. m.—Beyond the general retirement of the Russians along the railway northward, little is known here of the details of the past three days' events in Manchuria. Various reports of the number of additional Russian prisoners captured are in circulation. One estimate is 20,000. It is impossible to confirm the reports.

There is much speculation over the extent of the Russian retirement. Harbin is regarded as a base, but it is suggested that they may attempt to hold the Korean line.

Formerly the conservative element

GENERAL BILDERLING.

Commander of the Russian Rear Guard.

In the high councils of Japan favored setting a limit to the Manchurian advance. It opposed advancing to Harbin, but the result of the victory at Mukden removing opposition and the bulk of opinion and judgment now favors pressing advantages and carrying the war to the utmost limits possible.

### No Thoughts of Speedy Peace.

New York, March 20.—The Japanese press considers that Manchuria is now virtually in a state of Japanese occupation but the papers dismiss the thoughts of speedy peace in view of the Russian reluctance to admit defeat. Under the circumstances there, it is held that it will be essential to prosecute the war vigorously. The premier, speaking Friday night at a dinner of the Bankers' club, asked his hearers to conceive themselves in the position of Russia, who, although enormously superior in resources, population and military renown, is now confronted with the painful question of suing for peace of the nation, hitherto regarded with contempt. It would be unwise, he said, to anticipate such a concession. The Japanese, he added, must be prepared to continue the war to the bitter end.

### Communication with Army Cut.

St. Petersburg, March 18.—2:10 p. m.—Telegraphic communication with the retreating Russian army has been cut for over 24 hours, but the authorities hope it is only temporarily, declaring that they have no information that the Japanese have reached the railroad in General Linievitch's rear. Nevertheless with the curtain down the war office naturally is the prey of the most dire forebodings. The last word from the front was contained in a telegram from one of the Associated Press Russian correspondents, the only correspondent with the retreating army. It promised an attack from the rear. The telegram, although dated Changfui (40 miles north of Tientsin) at 4 o'clock Thursday afternoon

was sent from Kaiyuan, 30 miles north of Tie Pass, and only reached St. Petersburg this morning. It was very brief, saying simply that the army was retiring in good order and destroying the railroad as it went, but was constantly pressed by the Japanese, their rear guard action being continuous. There were ominous words in the concluding sentence as follows:

"We believe the Japanese are making a wide turning movement north and that they are ready to fall upon us when we get out of the ring-like group of mountains, which surround the Tie Pass gorge."

### COTTON BEARS FIGHT SULLY.

They Try to Hamper Campaign of the Great Bull.

New York, March 20.—The New York Herald has published the following:

"Cotton brokers, members of the New York cotton exchange, are becoming alarmed at the publicity attending the market operations of their former associate and fellow member, D. J. Sully, and have sent word broadcast that Mr. Sully, the deposed cotton king is no longer a member of that body."

"Official announcement was made on Thursday at the exchange to this effect, with the request that publicity be given the fact. No secret is made of the hostility of the bulk of the members of the late leader of the cotton market, and the promise is made that he will never again become a member."

The members of the exchange who are fighting Sully are the speculative bears, who do not want cotton to go higher, and they resent the activity of the great bull. It is predicted, however, that they will not be able to seriously interfere with Sully's plan to force cotton to a higher level.

### INDIANS WILL ATTEND REUNION

Band of Cherokee Confederates for Reunion at Louisville.

Louisville, Ky., March 20.—On interesting feature of the United Confederate Veteran's reunion to be held in Louisville June 14, 15 and 16 will be a squad of full-blooded Cherokee Indians, who are members of So-o-No-Kee camp and who probably will accompany the delegation from North Carolina under the flag of which state they served during the war.

Colonel Bennett H. Young has received a letter from Brigadier General J. M. Ray, commanding the Fourth North Carolina brigade, in which he says that he and Colonel W. W. Springfield, the inspector general of his staff, are going out to the Indian reservation to arrange for the attendance of the braves who fought for the Stars and Bars.

General Ray writes that North Carolina will have a large delegation and that there is great interest in the reunion aroused in all parts of the state.

### JEALOUSY, FIRE AND MURDER.

Suspicious Husband, Arrested for Alleged Arson, Kills Rival.

Central City, D. D., March 20.—J. P. Farnham, postmaster of this place and head of the Queen of the Mills Mining company, became suspicious of the relations of his wife with Richard Galvin, superintendent of Farnham's mine. He succeeded in intercepting an incriminating letter.

That night Farnham's home and business block, including the post office, were burned. Farnham was arrested for incendiarism, but was released on bail. A few days ago Galvin, who had disappeared, returned to the town.

The tragedy came today when the two men met on the street. Galvin drew and fired, but missed, when Farnham drew and shot Galvin dead. Farnham gave himself up.

### Grief Causes Suicide.

Gadsden, Ala., March 20.—Declaring "I will be with her soon," Sam Mayes, a well known farmer, crazed with grief at the death of his little girl, committed suicide at the Commercial hotel here by swallowing four ounces of laudanum. He had dreamed that she was dressed in white and continually beckoning to him.

## WANT ROOSEVELT TO GIVE INFORMATION

Senator Teller's Resolution Is Discussed in Senate.

### DOMINICAN AFFAIRS DISCUSSED

The Colorado Senator Says that the President Should Not Withhold Information that Ought To Be in the Hands of the Senate.

Washington, March 20.—The resolution by Mr. Teller requiring the president to send to the senate certain information relating to San Domingo affairs was laid before the senate when it convened today. Mr. Teller said the resolution as amended should be satisfactory to every one, and if adopted the next session, would have all the data required to consider the Dominican treaty.

"It is an absurdity to say that the president may have in his possession," said Mr. Teller, "information necessary to enable him to negotiate a treaty, and we are to be deprived of such information when we come to consider the treaty."

"I have heard on the street one reason advanced why we should immediately ratify this treaty. That is, that a foreign government—Germany—is likely to invade Santo Domingo. I believe such danger is a myth, and that Germany is satisfied with the course we have pursued in regard to Santo Domingo."

Mr. Teller concluded with a statement in regard to the resolution would go to the senate committee on foreign relations and be buried. He declared, however, that if this was done, he would put the dominant party on record next session as suppressing information that the senate was entitled to receive.

Mr. Cullom said that the committee on foreign relations was not in the habit of burying things that ought not to be buried and promised that if referred, the resolution would be considered "at the proper time."

Mr. Daniel argued that if the resolution were referred to the committee no reply could be had at the present session, and said that so simple and courteous request should be adopted. Continuing he said:

"I believe the president is a manly man, a bold man, a man who does not fear to do anything he feels that it is right to do. The adoption of so respectful a request would not put the president in the false position some senators appear to fear."

Mr. Daniel insisted that the information asked for was needed.

Replying, Mr. Lodge said he never had known of but one case where correspondence in relation to the negotiation of a treaty had been requested of the president and in that case the information was sent after the ratification of the treaty.

"If the resolution were adopted," said Mr. Lodge, "and the president should refuse, as I believe he would be compelled to do, in the proper observance of comity existing between nations, some hostile persons would not be slow to charge that he was withholding charges."

Mr. Lodge said that President Washington, without any precedent before him, had been brave enough to refuse information asked for by the house.

"I think we have never had a president who was not courageous enough to refuse improper information nor a senate mean enough to criticize the president if he should take such a course."

It was argued by Mr. Cullom that the information would not be available at this session unless the session were continued a week or two.

Mr. Morgan spoke in favor of the adoption of the resolution.

### Revival of Strike at Lodz.

Warsaw, March 20.—The directors of the Vienna railroad have asked for troops to guard the bridges between Lodz and Mielno because of a receipt of the latter threatening their destruction. There has been a revival

of strike agitation in Lodz district. A party of strike leaders tried to force workmen at the mills at Pabianice to leave their work, but the men refused. A fight followed, and agitator was killed and others were wounded.

### PASSENGERS IN REBELLION.

Refuse to Sail on Ship that Was Short on Provisions and Coal.

New York, March 20.—Details of the conflict between passengers and ships officers aboard the French steamer Montreal, a correspondent at Azores cables to the Herald. He says that the vessel put back when 200 miles out. She was short of coal and provisions and the passengers refused absolutely to proceed. Owing to the failure to send the passengers by a faster steamship, all united in a revolt and it was necessary to use armed force.

A Portuguese gunboat was called on for aid.

Passengers threatened the officers and the crew with summary vengeance should they attempt to leave Horta in the face of the terrific weather and with the prevailing scarcity of fresh provisions. The steamship Lafayette is expected to take the Montreal's passengers to New York to day.

### SEC. HAY SAILS FOR EUROPE.

As He Starts Aboard Ship He Collapsed from Weakness.

New York, March 20.—Secretary of state Hay as he was boarding the steamship Celtic to sail for Europe today was seized with a fit of weakness as he stepped upon the gang plank and nearly collapsed. As he was going aboard with his daughter Mrs. James M. Wadsworth, Jr., and Henry Adams, a friend, the secretary was seen to turn pale, stagger, gasp as if for breath and he would fall had not his friend supported him.

He was taken to a pile of freight where he sat down until attendants brought a wheel-chair, on which he was taken aboard the Celtic.

### Aged Couple Marry.

Gainesville, Ga., March 20.—William Rowling, one of the best known citizens of the place for the past 30 years or more, was quietly married this week to Mrs. Mary Simpson, whose home was near this city on the Gainesville Midland railway. Judge F. M. Loder performing the ceremony. Mr. Rowling is past the allotted three-score years and ten in age, but he is hale and hearty, and his many friends wish for him and his wife many years more of happiness and success. Mrs. Rowling is also over 75 years of age.

### President Returns to Washington.

Washington, March 20.—President and Mrs. Roosevelt reached Washington from New York at 7:30 this morning. They were met at the Pennsylvania station by their carriage and driven directly to the White House. The trip from New York was without noteworthy incident. Notwithstanding the early hour of his arrival the president was greeted by a considerable crowd at the station as he left the train. There was, however, no demonstration.

### Engineer Killed in Wreck.

Birmingham, Ala., March 20.—A mixed train on the Ensley-Southern railroad was wrecked 4 miles from Ensley resulting in the death of Engineer Joe Barnes, who was crushed under the locomotive as it turned over, and the injury of several others. The negro fireman had a leg cut off and will die. The passengers were in a coach on the rear of the train and escaped with a severe shaking up.

### Claimed Company Aided Revolution.

Willemstad, Island of Curacao, March 20.—Advises received here from Caracas, Venezuela, say that the superior court decided on appeal March 15, that the New York and Bermudez Asphalt company aided the Malon revolution. The high federal court will fix damages. The final judgment may not be rendered for many months. This case is for action against the government to rescind the company's concession.

## NEW BATTLESHIP IS ADDED TO OUR NAVY

Cruiser Washington Is Launched at Philadelphia.

### SISTER SHIP OF THE TENNESSEE

New Battleship Will Be of the Latest Design and Will Have a Great Battery and Defensive Power—Speed, 22 Knots Per Hour.

Philadelphia, March 20.—The armored cruiser Washington, which is to be launched today at the yards of the New York Shipbuilding company, is a sister ship to the cruiser Tennessee, launched at Cramps ship yards last December.

While not designed to be quite as fast as some of the lighter armored cruisers, she will have greater battery and defensive power than any vessel classed as a cruiser. The armor plate protection ranges from 9 inches for the turrets to 5 inches for the belt. The main battery will consist of four 10-inch guns and sixteen 6-inch guns. The secondary battery will have twenty 3-inch rapid fire guns, twelve 3-pounder semi-automatic guns, two 1-pounder rapid fire guns, two 3-inch field pieces and three small caliber rapid fire machine guns.

The indicated horse power of the engines is 23,000, and they are designed to drive the vessel at a speed of at least 22 knots an hour.

### NARROW ESCAPE FROM DEATH.

Democratic Nominee for Mayor of Chicago and Wife Victims of Accident.

Chicago, March 20.—Mrs. Edward Dunne, wife of the Democratic nominee for mayor, has been painfully injured and Judge Dunne slightly bruised when a team of runaway horses dashed into the brougham in which they were riding. The brougham was wrecked, and one of the runaways so badly lacerated that a policeman shot it.

The tongue of the carriage to which the runaway team was hitched, crashed through the glass window on the left side of the brougham and struck the ceiling of the vehicle, just above the heads of the occupants.

Mrs. Dunne, bleeding from gashes about the face caused by the flying glass, fainted, and was carried into a nearby residence, where she recovered consciousness soon afterward.

### Vardaman's Mother Dies Suddenly.

Jackson, Miss., March 20.—Mrs. Mary Fox Vardaman, mother of Governor James K. Vardaman, who lived with him at the executive mansion, dropped dead this morning in the bath room. Mrs. Vardaman was apparently in her usual good health this morning when she arose, expiring soon after the stroke before a physician could reach her side. She was about 65 years of age, and was formerly postmistress at Greenwood under the administration of President Cleveland. The department at the state house was closed today out of respect to her memory.

### Saw Mill Men Ask Injunction.

Savannah, Ga., March 20.—Council for the Georgia Saw Mill association today applied to the United States court for an injunction to stop the railroads of the state from charging an alleged excess freight rate of 2 cents a pound on Georgia pine. The interstate commerce commission recently decided that the rate was unjust and the United States court ordered the roads to desist from charging the extra 2 cents, which it is now claimed has not been done.

### Carnegie Will Add to Gift.

Charlotte, N. C., March 20.—In a letter received from James Bertram, private secretary to Andrew Carnegie he stated that Mr. Carnegie will give to the Charlotte library, which bears his name, an additional \$10,000 for the construction of an assembly room. Mr. Carnegie's first gift to the library here was \$25,000. The construction of the new assembly room will begin at once.

## DR. STROUSE HAS IMPORTANT CALL

Will Assist in Grand Revival in  
New York City.

### COMPLIMENT TO MR. BAYER

Says to That Gentleman, More Than  
Any Other, Was Due the Success of  
the Bible Conference and Chautau-  
qua—Worked Without Compensation.

While the friends of Dr. Clarence B. Strouse will regret to lose him so soon, they will nevertheless feel gratified that he has been called to New York, where he has been invited to participate in a great religious campaign. The invitation, which comes from one of the most eminent evangelists in the United States, requests Dr. Strouse to assume charge of the tabernacle at Forty-fourth street and Eighth avenue, one of the most important charges of the kind in the city.

"I dislike to leave Gainesville and my friends here so early, but I feel that God is calling me, and I must soon be leaving," remarked Dr. Strouse. "There is no man more appreciative of friends than I, but I feel it a duty I owe to God and my fellow men to get out and 'keep hustling' to save souls."

In speaking of the Bible Conference, Christian Workers' Institute and Chautauqua, Dr. Strouse stated that he was very well satisfied with the success of the enterprises. "I want to say one thing," he remarked, "and that is that to Ferdinand Bayer, more than any other one man, was due the success of these enterprises. As secretary of the Conference and Chautauqua Mr. Bayer worked earnestly in sending out advertising matter answering communications, with the result that a great many were attracted here. He has been energetic, faithful and of great assistance in advertising the Conference and arranging for the accommodation of guests, and Gainesville should feel proud of the man who has given so much time, without selfish motives, to the interest of his city. Without such a man the enterprises would not have been so successful, and I hope the people will appreciate this fact as deeply as I do."

Dr. Strouse is enthusiastic over the prospects of the coming year, and declares, with the assistance of Dr. Davidson, he will give Gainesville one of the best Chautauqua programs the South has ever seen.

### HOUSES ARE SCARCE.

Mr. Voyle Says Demand is Still Great  
for Medium Priced Residences.

E. E. Voyle, manager of the Abstract and Realty Company, and one of the best posted men on rentals, etc., in the city, states that the demand is still good for houses of all classes, with a preference for a medium cottage at a medium price. Mr. Voyle either owns or controls probably as many houses as all the rest of the agents combined, and knows what he is talking about. He has been engaged in the rental business here for several years, and no man is more familiar with the real estate and rental business than he.

"While houses in Gainesville are scarce, the demand is principally for modest priced homes—say neat cottages that would rent for from \$6.50 to \$8 per month. Gainesville is being favored now with an industrious class of people who are coming for employment. As a rule they are men of small families, and have no need for a large and expensive house. If some capitalist would erect a dozen or more cottages of this class he would have no trouble in keeping them occupied, and his investment would pay excellent interest. It is the best suggestion I could make for investment at this time."

### Confirmation Services.

There was an impressive service at Holy Trinity Episcopal Church Sunday morning, being the confirmation ceremonies of a class of seven. Rt. Rev. Edwin G. Weed of Jacksonville was present and officiated, preaching a fine sermon. In the evening Bishop Weed also filled an appointment, preaching to a large and cultured congregation. Since coming to this parish Rev. Francis H. Craigbill has been honored by three confirmation classes, meaning quite an increase in the membership of the church. He is to be congratulated.

## OLD SORES OFFENSIVE- DANGEROUS

Nothing is more offensive than an old sore that refuses to heal. Patiently, day after day, it is treated and nursed, every salve, powder, etc., that is heard of is tried, but does no good, until the very sight of it grows offensive to the sufferer and he becomes disgusted and morbid. They are not only offensive, but dangerous, because the same germ that produces cancerous ulcers is back of every old sore. The cause is in the blood and as long as it remains the sore will be there and continue to grow worse and more destructive.

The fact that thousands of old sores have been cut out and even the bones scraped, and yet they returned, is indisputable evidence that the blood is diseased and responsible for the sore or ulcer. Some years ago my blood became poisoned, and the doctor told me I would have running sores for life, and that if they were closed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated I would be, neither have the sores ever broken out again. JOHN W. FUNDIS, Wheeling, W. Va., May 28, 1903.

Valuable time is lost in experimenting with external treatments, such as salves, powders, washes, etc., because the germs and poisons in the blood must be removed before a cure can be effected. S. S. S. cleanses and purifies the circulation so that it carries rich, new blood to the parts and the sore or ulcer heals permanently. S. S. S. not only removes the germs and poisons, but strengthens the blood and builds up the entire system by stimulating the organs, increasing the appetite and giving energy to the weak, wasted constitution. It is an exhilarating tonic, aids the digestion and puts every part of the body in good healthy condition. Book on the blood, with any medical advice wished, without charge.

## CITY WILL HAVE A NEW DIRECTORY

Modern Book of This Kind Will  
be Issued Immediately.

WORK TO BEGIN AT ONCE

Demand for a New Directory is Great.

As It Will be a Matter of Great Benefit and Convenience to Citizens.  
Work Will be Up-to-Date.

Realizing the urgent demand and need for a modern directory, Jesse E. Burtz, who has had considerable experience in the work, proposes to begin within the present week the compilation of a book which is destined to prove of great advantage and benefit to the city. The book will be complete in every detail, and will no doubt be appreciated by every class who can use the same to advantage. Mr. Burtz compiled the first and only directory ever published of Gainesville, under the direction of the Monarch Directory Company of New York, by whom he was then employed. It was a complete work so far as it went, but since that time, five years ago, the city has so wonderfully increased and improved that a modern directory is considered absolutely essential.

Mr. Burtz is undertaking this work as much as a matter of accommodation to existing conditions as anything else, and there is no doubt but that he will receive the encouragement of the people.

## Shot Full of Holes.

"I am 65 years old, and have been a great sufferer from headache all my life. One of Dr. Miles' circulars was left at my door, and what it contained about headache interested me, so that I determined to invest a dollar in their make of shot, and go gunning for that headache. The first charge brought it down, but I continued to shoot until the thing was shot so full of holes that I believe it will never come to life again. I consider it the work of a 'good Samaritan,' to spread the knowledge of what Dr. Miles' Anti-Pain Pills will do." I. F. MOORE, 1352 Fairfax Ave., Bridgeport, Conn.

## NEWS OF CITY AND COUNTY CONDENSED

W. D. Bush and Timothy Bailey of Newberry were among the visitors to this city yesterday.

O. W. Maines of Montecoa was in the city Monday and reports the farmers in that section very busy with their planting.

E. C. McMahan, who is doing the brick work on the new ice plant of the Diamond Ice Company at Alachua, is at home for a day or two. He reports the work progressing nicely.

Attorneys Horatio Davis, Robert E. Davis, Evans Haile, Syd L. Carter and Christopher Matheson went yesterday to Starke, where they had professional business before His Honor Judge Willis. The court in Starke, fall term, Eighth Judicial Circuit, for Bradford county, convened Monday morning.

The home of Dr. J. W. McCollum, corner of North Oak avenue and East Orange street, which has undergone extensive alterations and repairs, will soon be ready for occupancy. Large and tastily arranged verandas have been added to the home, to say nothing of the change in architecture and addition of rooms. When completed it will be one of the most desirable properties in the city.

Dr. J. B. Curtis of Orange Heights was in the city yesterday. He is one of the most successful pecan growers in the State, and has about fifteen acres, comprising 500 trees of the choicest varieties, which will yield for him an independent income in a few years. The trees are already bearing heavily, and the Doctor experiences no difficulty in marketing his products right at home. The day will come when a pecan orchard means an absolute independence for generations.

Chas. B. Ellis has purchased the business of Dinkins & Presley, the Gainesville Pressing Club, 116 West Union street, and will continue to conduct the business at that stand. A pressing club is a great advantage, especially to those who have a weakness for being "well dressed," and Mr. Ellis will no doubt enjoy a fine trade. The terms are only \$1.50 a month, which entitles members to a full service. Non-members may secure work at a very reasonable price, and satisfaction is guaranteed. Mr. Ellis will add a tailoring department to the institution, where first-class work may be secured at reasonable rates. See his advertisement in another column.

Negro Assailant is Captured. Birmingham, Ala., March 20.—A special to the News from Jackson, Miss., says detectives employed by Governor Vardaman to investigate the criminal assault committed on Miss Mamie Marsh in that city a few weeks ago, which came near resulting in a lynching, have placed under arrest a negro named Neal Hicks, and claim to have evidence of his guilt. Hicks is now in the county jail, and the grand jury will consider his case Monday.

### A Chicago Alderman Owes His Election to Chamberlain's Cough Remedy.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for affections of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and I was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept right on talking through the campaign, and I thank this medicine that I won my seat in the council." This remedy is for sale by all druggists.

### Negro Counterfeiter Arrested.

San Francisco, March 20.—On information received from Louisville, Ky., the secret service officers here have arrested a negro whom they believe to be Luke Ray, alias Lee Smith, who is wanted there to answer charges of murder and counterfeiting. Ray was captured and taken to Memphis, but escaped from jail. The prisoner has denied that he is the man wanted.

### Girls Rescued from Flames.

Atlanta, March 20.—Caught in a gush of blinding smoke and flames two young women, Misses Carrie and Nellie Neal, had to be rescued from the third floor of a burning building at 183 Ivy street at 4 o'clock Friday morning and brought down a ladder in the arms of Chief Joyner. The cause of the fire is unknown. It is supposed to have been caused by a box of pot ashes turning over. It started on the ground floor in the front hall. The material in the hall was very inflammable, and it blazed up quickly.

## THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. # A TRAINED NURSE

After Years of Experience, Advises Women in  
Régard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate Nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience, besides her professional education, and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes: "I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail me. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctors prescribed for me, yet I did not improve. I would blot after eating and frequently become nauseated. I had an acid discharge and pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female ills, where all other medicine fails. It is a grand medicine for sick women."

Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine.

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound. Experience has proved this.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is free and confidential.

### All She Wanted.

"Do you think, young man, that you could give my daughter all she asks for?" questioned papa grimly.

"I—aw—think so, sir," murmured the lover bashfully. "She says she wants only me."

A man must be both stupid and uncharitable who believes there is no virtue or truth but on his own side.—Addison.

### Startling Mortality.

Statistics show startling mortality from appendicitis and peritonitis. To prevent and cure these awful diseases there is just one reliable remedy, Dr. King's New Life Pills. M. Flaunery, 14 Custom House Place, Chicago, says: "They have no equal for constipation and biliousness." 25c at druggists.

### Began Again Early.

Clara—You don't mean to say that at fifty he is making love to you. Isn't that rather young for an old man? Maud—Yes. But he is the most precocious old man I have ever met.—Life.

## KEEP MOVING.

You cannot do everything in a day, but the growth of Gainesville in the past two years has convinced many visitors that much can be accomplished in twenty-four months. The improvements made in that time have assured many that we have a city of which every resident may feel proud. There is every reason to believe that within the next two years the increase in growth will be equally as great. The farming community in the vicinity of Gainesville is ample to support a city of twice its present size, and the industries will furnish labor for years to come.

The farming lands near the city that are for sale should be properly advertised, so that lists can be sent to the Northern States where many people are anxious to come here, if they only had an idea of what they could expect.

The way to do business is to keep moving, and the great mover is printer's ink.

Maj. William Warner of Kansas City, Mo., was elected to succeed Senator Cockrell, who has held the office since 1874.

Secretary Hay has been in poor health for some time, and he will take a six weeks' trip to the Mediterranean, or until he is cured.

If Oyama continues to draw on the Russian commissary for supplies, he will not be compelled to make a war loan to provision his army.

The professor in Columbia University who says that gambling is not wrong, has evidently raked in a few "jack pots" from a quiet dollar limit game with a few congenial spirits.

The only thing needed by the Russians to aid them in their movements is automobiles. Had the army been supplied with them there would not have been so many taken prisoners at Mukden.

Prof. Samuel Williston of the University of Chicago says that inside of a few millions of years this earth will be dominated by birds. The reptiles were prominent years ago, and after we have had birds for a while we can probably decide which is the worst, snakes or birds.

Someone has written a note to The St. Augustine Record desiring to know why there are no silver dollars of 1905 in circulation. Never mind the date on the dollar, if you want to subscribe for The Twice-a-Week Sun. We will take any old dollar—paper or silver, and take all the chances of germs being on either.

The poor are always with us, but it is gratifying to know that while there has to be some attention given to the indigent persons, those in charge of the county farms in Florida have proven capable and careful persons, and in many instances these institutions have accomplished the object for which they are intended and at the same time, by business-like management paid their way with a small balance on the right side of the ledger page.

## TOWN KILLERS.

Many towns in the South are kept back by the men known as "town killers," who are never in the front rank with any enterprise for themselves, but are watching someone else who desires to locate, and figuring how much they can make in the deal. Two or three grasping individuals can work great injury to any town.

The man who goes to a town with no other object in view than to make money out of it is not likely to be very careful how he makes it, nor is he likely to be interested in any improvements or betterments except such as will put money in his purse. His main reason for being there is to benefit himself, and when that can no longer be done he pulls up stakes and looks for another open door. Better a man of little means who will devote all his efforts and energies to the work of building and bettering his own town than one who cares for nothing but squeezing all he can out of his fellow-citizens.

But the man who is always ready to assist any new enterprise is the kind needed. They take pride in their town, talk for it and work for it. Florida has many good towns, with room for many new enterprises, and the fact that thousands are coming here each year is evidence that there is room for new enterprises all over the State.

## DAMAGED COTTON.

The following from Cotton, the cotton trade journal of Manchester, England, may be of interest to all concerned regarding the care of cotton:

"The great improvement noticeable last season in the quantity of cotton landed in Europe damaged by exposure prior to shipment was taken as an indication that the vexatious delays in delivery (owing to time taken in making the damaged bales merchantable), and various other resultant worries, would not be appreciably present in future seasons, as much greater facilities for housing cotton while awaiting shipment were being provided. Reliable authorities, however, report that a large quantity of the cotton now being held by farmers, etc., in America, is not adequately protected, and that the result of bad weather lately experienced will eventually be seen in increased percentage of country damage in shipments from the balance of this crop. It is stated that recent arrivals in Great Britain already point this way."

## Three Governors in One Day.

Denver, Colo., March 20.—In less than 24 hours Colorado has had three governors. The bargain made by the leaders of the opposing Republican factions of Colorado to take the governor's chair from Alva Adams and to seat Lieutenant Governor J. F. McDonald, after permitting James H. Peabody to hold office for one day was carried to a conclusion last evening. Governor Peabody, in fulfillment of the agreement which he made prior to the general assembly deciding the gubernatorial contest in his favor, resigned this evening, the office to which a day previous he was inaugurated.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHESNEY & Co., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

## Wife Murderer Hanged.

Roanoke, Va., March 20.—James W. Linkous, 56 years of age, was hanged at Radford Friday for the murder of his wife and their adopted son of last Christmas morning. His neck was broken by the fall. Not only during the ordeal did his nerve for sake him and his last words were those protesting innocence.

The decision of Congress to return to the several States all the Confederate battle flags captured in the Civil War, and the prompt approval by the President of the bill authorizing such return, seems to have created much enthusiasm in the South, and complimentary letters are daily reaching the White House thanking the President for his part in the legislation. There is little doubt in the minds of Southern members of Congress that this graceful act on the part of Congress and the President will contribute materially to the enthusiasm of the President's reception on the Southern trip he is so soon to make. There are 544 old battle flags all told, about 100 belonging to Northern States, and the remainder to States which formed part of the Confederacy. They are all stored in the "flag room" of the war department where they have been carefully protected from the ravages of time, and as they were of good material originally they are said to be in an excellent state of preservation. Some of the flags bear no mark by which they can be identified, and some difficulty will be experienced with regard to these, but all which have some mark by which they can be traced to a particular State will be forwarded to the governor of that State at an early day.

## Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs. The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## CITY COUNCIL WILL MEET THIS EVENING

Will Certify Candidates to be Voted for at City Election.

### LITTLE OPPOSITION ON TICKET

Office of Marshal Will Furnish Only Spirit of Fun—Three Candidates for That Position—Aldermanic Positions Seem Begging.

The City Council will convene in special session tonight for the purpose of certifying to the names of candidates to be placed on the ticket for the municipal election, which will be held on the second Tuesday in April, and to make other preparations necessary for the election.

Indications are that there will be little or no opposition for the aldermanic positions. There are to be three aldermen elected, and inasmuch as there are so far only three candidates—W. B. Taylor, A. M. Cushman and J. B. Padgett, the race for this office will be tame unless another candidate is placed before the meeting tonight, and this is hardly probable. There will be no opposition to the entire ticket with the exception of marshal, there being three candidates for that position.

### A Successful Normal.

The normal department of East Florida Seminary, which began on Monday, the 13th inst., is making rapid strides towards success, and Prof. Jere M. Pound, the principal, states that so far the normal has broken all previous records in point of attendance. There are many teachers present from various sections of the county, and it is anticipated that the term will be a most successful one from every standpoint, since the students are manifesting a great interest in the work.

This normal affords to teachers of the county an excellent opportunity for improvement, since the terms are very reasonable, and board can be secured at a low rate, both at the barracks and with outside families. The entrance fee is only \$5 for the term of ten weeks, which is merely to cover the incidental costs. Students who desire may take all regular Seminary courses without extra charge, and without Seminary discipline and restrictions.

Prof. Pound feels greatly encouraged over the outlook.

### Plague Rages in India.

New York, March 20.—Owing to the ravages of bubonic plague not more than 500 inhabitants remained in the city of Pisagua, India, according to a Herald dispatch. The place has a population of 20,000, but all who were able, have fled. Only one doctor remains to attend the sick, two others having fallen ill. There are 126 cases in the hospital, and 12 new ones reported in one day, five resulting fatally.

## STORY OF "LAS MENINAS."

Now One of Velasquez's Notable Pictures Came to Be Painted.

The story of "La Meninas" is that Velasquez was painting a portrait of the Spanish king and queen (who sat where the spectator is when he looks at the picture). Their little daughter, the Infanta Margarita, came in with her maids of honor, her dog and her dwarfs and accompanied by her dwarf and a courtier. The little princess asks for a drink of water; a maid of honor hands it to her with the elaborate etiquette prescribed by the formalities of the most rigidly ceremonious court in Europe. The scene presented so charming a picture that the king desired Velasquez to paint it. The artist has included himself in the group, at work upon a large canvas on which it is supposed he was painting a portrait of the king and queen when the interruption occurred. The reflection of the king and queen appears in the mirror at the end of the room, and the chamberlain, Don Jose Nieto, stands outside the door drawing the curtain. The scene is, indeed, represented with such wonderful realism that a famous French critic said of it, "So complete is the illusion that, standing in front of 'Las Meninas,' one is tempted to ask, 'Where is the picture?'"—St. Nicholas.

## An Oversight.

A glutton once made a bet that he could eat ten apple dumplings at one sitting if the other party would pay for the accompanying wine. After the sixth dumpling, however, he declared himself beaten. Sadly he regarded the seventh dumpling, which still rested on the plate. Shaking his finger at it, he said: "Ah! If I'd known you'd be left over I'd have eaten you first!"—Argonaut.

## Posterity.

"What do you think posterity will say about you?"

"Well," answered Senator Sorghum, "I am not afraid of what posterity will say. People who are mean enough to talk about a man behind his back never wield much influence."—Washington Star.

### READ THIS.

Lexington, Tenn., June 5, 1901.

This is to certify that about March last I suffered intensely with my back and kidneys. Just prior to this I had undergone treatment for bladder trouble and was relieved, except the treatment was followed by the above trouble. It was recommended that I try "Texas Wonder, Hall's Great Discovery." I took one dose on retiring at night, and to my agreeable astonishment, I found myself relieved. One dose did the work. There is no bosh about this. It is wonderful.

Respectfully,

C. R. Scott,  
Proprietor Scott House, formerly county chief clerk, postmaster, etc.
